SUMMARY

Frontend Developer skilled in React.js, JavaScript (ES6+), HTML5, CSS3 with practical experience in building responsive web applications, interactive dashboards, and user-friendly interfaces. Strong in problem-solving, teamwork, and UI/UX design. Passionate about creating scalable and high-performance frontend solutions.

EXPERIENCE

Frontend Developer Intern – React.js
HackElite

11 August 2025 – 11 Nov 2025

- Designed and built responsive web interfaces including Admin/Client login & signup pages using React.js, HTML, CSS, and JavaScript, ensuring mobile-first responsiveness.
- Developed a Client Management system enabling dynamic user permissions through dropdown-based interactions.
- Created a multi-page Client Dashboard (Security Analysis, Threat Reports, Domain Monitoring, Keyword Analysis) with interactive React components such as scrollable cards, toggles, and notification alerts.
- Worked with REST APIs to fetch and display dynamic data on the frontend, ensuring interactive and data-driven user interfaces.
- Used Git/GitHub for version control, managing branches, and collaborating with the development team.
- Learned and implemented the process of converting Figma design prototypes into functional React.js components, improving UI accuracy and developer–designer collaboration.
- Tech Stack used React.js, JavaScript (ES6+), HTML5, CSS3, Git/GitHub, UI/UX Design, Responsive Web Applications.

PROJECT

CryptoTracker Web App

cryptopricetracks.netlify.app/

- Built a responsive web application that displays real-time cryptocurrency data prices using the CoinGecko API.
- Designed a clean and user-friendly UI for desktop, tablet, and mobile devices.
- Managed API data efficiently using React hooks (useState, useEffect) for dynamic updates.
- Tech Stack used React.js, JavaScript, CSS, HTML, CoinGecko API..

Portfolio Website

anee-portfolio.netlify.app/

- Developed a personal website to showcase projects, skills, and contact information.
- Built responsive layouts to ensure seamless performance on mobile, tablet, and desktop devices.
- Created multiple sections including Hero, Projects, Skills, and Contact using React components.
- Tech Stack used React.js, CSS, JavaScript, HTML .
